Comments: I am very against the Targhee expansion plan. As someone who grew up in the area I've seen alot of changes to this beautiful valley over the years. Some good, some not so good. I feel that the main driver of negative change, such as unafordible real estate, increased traffic, over use in natural areas, etc, has been Targhee expansion and increasing notoriety. Not everone who is from Teton Valley is a skier, and many of those who used to ski there can no longer afford it. I don't think everyone of the residents of this valley should be so effected by the desire of Targhee expansion.
