Comments: I support modified option 3 ( read Commissioner Dan Powers letter)

I encourage this decision to be made with a 100 year perspective...dont make this decision for this year or even the next 10 ... it will be a catalyst for the direction of this valley for the next 100 years.

A full expansion will change the nature of Targhee, the Jedidiah Smith Wilderness, GTNP and the GYE.

I would also encourage the decision makers to look around the Western states and Canada as their are many examples of what a full expansion will bring.

All this being said. I am grateful for Targhee and am I 20 year pass holder..

As with most thoughtful decisions the solution will be found in the middle
