Title:

Comments: I oppose this expansion due to the following reasons.

The police, fire and EMS services do not currently support this expansion. If this is approved without proper infrastructure in place, people's lives will be in jeopardy.

There is only one road in and one road out. If there is a wildfire people could be trapped in a remote wilderness area.

The Lights on the mountain will disrupt the wilderness experience as well as wildlife.

Targhee had 20 years to build the Colter lift. I believe that this proposed expansion is far too vast for existing ownership to complete.

The avalanche danger in the South Bowl to Teton Canyon is severe.

Allowing expansion to Teton Canyon should disqualify this proposal as lights will be visible from the J. Edward Smith Wilderness Area and Grand Teton National Park.

This will disrupt migrating wildlife corridors for many of the wild animals in the area rely on to survive and flourish.
