Comments: I live just off of Ski Hill Road. I am a dedicated user of lands adjacent to GT. I am a dedicated user of GT. I have attended every public meeting or presentation of which I have been aware. Because GT proposes major improvements that will have irremediable effects on the view shed, wildlife habitat, important plants and the watersheds, I ask the USFS only approve GT improvements within the existing boundaries. Even then, I ask the USFS to only allow such improvements that will not damage view sheds, wildlife habitats, important plants and the watersheds. Thank you.
