Comments: I am so opposed to the expansion of Grand Targhee, for so many reasons. There is already too much development & subdivisions in Teton Valley now. More buildings at Grand Targhee will ruin the view even more than it is now. An expansion will effect so many in the valley in a negative way. Our taxes will go up & they way too high now. It will effect our schools, roads, & and so much more in a negative way. My children love to run & X-country ski in Teton Canyon. If this expansion goes through they will probably not be able to do & enjoy that anymore. There are enough & too many big ski resorts in the west already. We don't need another one here. Grand Targhee is just fine the way it is now. So please no expansion at Grand Targhee. The valley needs to stay the way it is as much as possible. So please say no to the greedy people who want this expansion. It will be so sad and disheartening if this expansion goes through. Thank you, sincerely Tina Kaufman.
