Title:

Comments: I am 100% OPPOSED to the Ponderosa drilling project in or near the sacred Black Hills in the state of South Dakota. Stop destroying Mother Earth! Stop disrespecting the culture and the Treaty Rights of the Lakota Indian people. I was born in the United States (Turtle Island) and have lived on Turtle Island for over 60 years, so I'm an elder. I'm of African / Gullah and eastern Cherokee ancestry. My family is from West Africa and from the Sea Islands of the southeastern U.S., and also from the Smoky Mountains of eastern Tennessee. Do not approve or allow or permit the Ponderosa mining / drilling project! God is watching, and Mother Earth WILL have the Final Word.
