Comments: I am writing about the sheet metal Quonset hut in the Mount Timpanogos Wilderness along the Wasatch Front in northern Utah that was damaged by snow during the winter of 2021-2022. As part of the construction plan, the agency would invade the Wilderness with helicopters, jackhammers, cement mixers, and other motorized equipment. The Forest Service claims that rebuilding the structure would improve the area's wilderness character - it will not.

I ask the agency to let the Wilderness be wild by allowing the hut to fade with time, or by using wilderness-compatible means to remove the collapsed hut's remnants.
