Title:

Comments: The Forest Service's duty is to protect the wild character of the Mount Timpanogos Wilderness. Its wilderness policy recognizes that a structure is not needed for visitor use, stating that visitors must be prepared on their own."

The Forest Service must find an alternative that lets Quonset hut to fade with time or be dismantled responsibly.

The EA does not detail how many helicopters flights are expected or the duration of the project. It only alleges, without proof, that stock is impractical and stock users (unidentified) said they wouldn't take their animals up there. The Forest Service has wilderness stock. There is no indication the agency asked its own people.

For such an undertaking, with helicopter flights, motorized equipment, jackhammers, cement mixers, and other motorized tools, an EIS is needed. Thank you.
