Comments: The Forest Service is responsible for protecting the wild character of the Mount Timpanogos Wilderness. The agency's own wilderness policy recognizes that a structure is not needed for visitor use, stating that visitors must be prepared on their own to face "inherent risks of adverse weather conditions, isolation, physical hazards, and lack of rapid communications, and that search and rescue may not be as rapid as expected in an urban setting."

The Forest Service is proposing a project in Wilderness involving helicopter flights, motorized equipment, jackhammers, cement mixers, and other motorized tools. An Environmental Impact Statement (EIS) is needed.
