Title:

Comments: Mount Timpanogos Wilderness is a WILDERNESS and should be kept that way. That means ANY structure would take away from that "wilderness" designation. The proposed re-building project is a waste of time, money and resources. This building serves NO practical purpose and is a major invasion of equipment and workers that will totally disturb this pristine environment and the wildlife that lives there. This project is TOTALLY UNNECESSARY. Let the wilderness be WILDERNESS!
