Comments: I concur with NO ACTION

Do not reconstruct a useless, dilapidated sheet metal Quonset hut in the Mount Timpanogos Wilderness. Let the hut fade with time, allowing Wilderness to be wild.

A structure is not needed for visitor use.

Metal remnants will disintegrate over time. Remaining rock and cement can be safely dismantled by traditional means.

The Forest Service's first responsibility is to Protect The Wild Character of Mount Timpanogos Wilderness.

An Environmental Impact Statement is needed if Forest Service proposes a project involving helicopters, motorized equipment, jackhammers, and cement mixers.
