Title:

Comments: As part of the construction plan, the agency would invade the Wilderness with helicopters, jackhammers, cement mixers, and other motorized equipment. The EA does not detail how many helicopters flights are expected or the duration of the project. It only alleges, without proof, that stock is impractical and stock users (unidentified) said they wouldn't take their animals up there. The Forest Service has wilderness stock. There is no indication the agency asked its own people.
