Title:

Comments: Emerald Lake Shelter Reconstruction Project #66370

This proposal appears to run counter to the stated purpose of "wilderness ". Please do not proceed.

The materials provided note the facility is not needed, as not been needed for many years. The proposed reconstruction, in addition to not being requested by users, would severely disturb the wilderness it purports to enhance.

Dollars allocated for this project could doubtless be used to improve needed repairs/improvements in other Forest Service areas.

Respectfully,
Judy Finger
