First name: jean

Last name: publie

Organization:

Title:

Comments: ski act is 39 years ago. our publi lands have changed substantially in last 39 years. we have less of them left because selfish profiteers come alon to make money from them. the citizens have fewer and fewer natural lands to go to. we want preservation of our public lands for our natural habitation of them, not changed for the high priced ski industry profiteering. we love and respect gods natural land. we dont need more expansion at this site. climate is changing-there might not be any snow around this area in coming times. the public land does not exist for profiteering businesses to use it up for their own profiteering. it exists for all of us to visit and to respect for gods work of nature, natural and untrammeled by mans buldings,concrete, wipeout of trees that make oxygen for us to breathe, etc. we dont need or want this further development by this profiteers.shut it down. deny this permit. we need to update our rules for use of public land and respect its naturally.
