First name: Kimball

Last name: Hewett

Organization:

Title:

Comments: I am a volunteer with Utah County Sheriff's Search and Rescue team for over 10 years. The Emerald Lake structure has in the past provided greatly needed shelter from storms and harsh weather. Our team has used this structure to stage rescues and to care for patients while awaiting conditions to allow transport. The safety benefits of having such a structure available far outweigh the reasons given against this structure. It has and will save lives, period.

Kimball Hewett
