Title:

Comments: I currently live in Colorado but am moving to South Dakota by the end of the year. I vacation several times a year in South Dakota in and around the Black Hills. It is abhorrent to even consider allowing the destruction of some of the most beautiful and irreplaceable land in America. I am fully and unequivocally opposed to this project and I believe you will see the people of the Black Hills will also be in emotional disagreement. Please listen to the public that live here and not bureaucracy that works for the dollar. Thank you for your time.
