Comments: Hello, I am writing in opposition to the PONDEROSA EXPLORATION DRILLING PROJECT #64551

The Black Hills are a sacred site falling under the 1851 and the 1868 Treaties and the Lakota people are the ones with the moral and legal authority regarding any extreme energy extraction proposals.

Every big destruction on holy places are not allowed, according human rights who are born their, raised their children in that aerea and are the land water and earth protectors of holy mother earth ..so no distruction there!

Because of the enorm impact of the life of all.
