Title:

Comments: I support Solitario and their efforts to bring jobs and exploration to the Black Hills. Environmental groups should have no say in the proceedings of a business. Environmental groups are not scientists, or geologists. They are not logical, reasonable, or knowledgeable about anything to do with exploration or mining. Solitario is bringing important work to the hills and they are doing so reasonably and responsibly. Exploration is not only good for south dakota but for the united states. I support and approve of all current and future projects by Solitario.
