Comments: I oppose the Ponderosa Exploration drilling project #64551.

The drilling project will negatively affect tourism area. The landscape where the project is proposed is used by the Indigenous community for ceremonial purposes protected by AIRFA. The treaties of 1851 and 1868 guaranteed protections from bad men. The mining project is a nuisance to the surrounding community and does not have consent of the tribes as required by NEPA. Treaties are the law of the land according to the Constitution. I opposed as a 3rd party descending member of both parties and claim inherent rights to all treaty obligations.
