Comments: Please stop all mining near Spearfish Canyon! It is one of the most beautiful places in the country!

Gold mining has always been for greed! After they extract the gold, they leave the mess for decades to clean up!

Ruining the natural water and trout!

Warf and First gold have destroyed the beauty of Terry Peak. Don't let this happen in the Canyon!

We have wildlife, deer, elk, mountain goats that will be spooked by drilling!

The tourist industry brings more to the state than gold!
