First name: GAYLE

Last name: MARSH

Organization:

Title:

Comments: NO gold drilling in the sacred Black Hills (?e Sápa) without Tribal consultation or proper environmental review. The Ponderosa Project will desecrate Indigenous lands, threaten drinking water, endanger wildlife, and disrupt ceremonial sites-all under a false "Categorical Exclusion." This is stolen land, not a sacrifice zone.

I demand a full Environmental Impact Statement.

This area is sacred to me and I want it protected.
