Comments: I strongly oppose this mining project. As a resident and homeowner in Spearfish, I and many others do not want to see a mining company come in and tear up the beautiful landscape we all enjoy. We do not want a mining company defacing the black hills, we do not want to live in a town affected by mining, we don't want to see tourism dollars and real estate values impacted by mining. The Black Hills are an incredibly important place for people to visit, recreate in, and connect with the natural world in. There is no place for Solitario Resources here.
