Last name: Kellermann

Organization:

Title:

Comments: Wilderness designation prohibits structures. The existing structure should be allowed to fade into the environs, allowing nature to absorb this alien element. Please keep this stunning landscape wild and free. Not all our natural resources and our plant and animal communities that inhabit them need be exploited or used for recreation by humans. Let us not "improve" nature.

The proposed project would require extensive helicopter flights, cement mixes, jackhammers and other motorized equipment that would disturb and degrade this area further. The money spent on this project would be a waste of taxpayer money.
