Comments: I strongly support the use of Class 1 eMTB on Deschutes national forrest trails. My husband and I are over 60 and love the sport but at our age - many of the trails are not accessible due to the physical challenges required. We hope that by adopting a policy to accept eMTB the sport will continue to be accessible to all age groups and abilities. We would be happy to participate in any trail building/maintaining workgroups for this privilege. Thank you.
