Comments: I am excited about the Brian Head expansion project. I think the additional forest lease acres is a good use of public land to offer more recreational opportunities. From what I can tell on the map, the proposed lease area will not have a large impact on current public use of the forest.

I would also love to see more places to shop and dine in Brian Head. I think the expanded ski areas will drive growth and provide employment opportunities in Brian Head and Parowan.

I am in favor of this project and look forward to seeing it come to fruition.
