Title:

Comments: Strongly object to more development in the Cedar Breaks area. The meadows have already suffered impacts. There is a noticeable increase in dandelions from excessive construction. Why not preserve the extraordinary night skies and wildflower displays that make the Monument so special? I'm also concerned about excessive traffic in the canyons. Why must we always pave paradise??? Why are a few developers' possible profits always privileged over our ever more scarce natural resources? Let's have more caring for the land and less serving developers. Thank you for your efforts on behalf of the public.
