Comments: Dear Ms Kill:Thank you for your efforts to manage this proposal. I'm guessing you've heard from others that dealing with tryingto locate the proposals seems quite serpentine. I'm guessing this involves following USFS's regulations. So said,I've found and read and support alternative one. Now, trying to share my thoughts it a challenge as it appears thereis no longer a way to submit an email. As we live in Mesa Antero Estates we regularly see the uncontrolled anddamaging choices of many visitors. Please advise me as to how I can submit my support for Alternative 1.Thanks,Michael Fischer MD
