Comments: Ladies and Gentlement,

Please reduce the amount of dispersed camping in the Twin Lakes area. It is out of control. Alleviate this condition by constructing new campgrounds in the area. The new, and existing campgrounds should be manned, full or part time, by uniformed USFS personnel. To ignore the "anything goes, helter skelter" overnight camping is not proper management of the public land.

Please react promptly to these unacceptable conditions in the Twin Lakes and Forebay areas.

Thank you for allowing this feedback and considering my comment.
