Title:

Comments: Good Morning,

I see you are now seeking comment on Dispersed Camping the Leadville and Salida Ranger Districts. I am a member of Rocky Mountain Back Country Horseman, and have been a bike rider, motorcycle rider, 4 wheel rider, snowmobiler and primarily a horseback rider. I ride trails throughout these Districts, the main issue I run into are bike trails being eroded from Whoop de dooers, and parking.

Parking with a decent sized horse trailer, for overnight camping, can be an issue. Please take into consideration our use, and consider allowing for reasonably large rigs off main access roads far enough back to still have an "out in the woods" feel and hopefully so criminals won't come up and break in.

Tough job, and Thank you for this,
