Comments: Please keep the Evans Creek OHV trail system as primitive as possible. There are very few legal trails in Washington that provide a challenge for OHV drivers (i.e. 4x4, Jeeps, ATV). Allowing the USFS and contractors to reclassify the OHV trails so that logging operations can be conducted diminishes the purpose of OHV parks. Even temporarily "fixing" trails will have a lasting impact on a trail that has become difficult and interesting over the last 10-20 years.
