Comments: Dear Forest Supervisor, As a landowner of two properties in the Cooke City/Silver Gate area, I would like to formally object to the Cooke City Fuels and Forest Health Project #57361. After reading the proposal drafts for this project, I am strongly convinced that it would irrevocably harm the area, increase risk of fire rather than decrease, destroy the peaceful nature of the valley, jeopardize waterways, and damage critical wildlife habitat. Furthermore, I have read and concur with the comments submitted by the Beartooth Alliance. On behalf of three generations of my family, I encourage the USFS to NOT put the proposed plan into action. Thank you for the opportunity to comment.
