First name: Justin

Last name: Johnson

Organization:

Title:

Comments: I think this is ridiculous I've been going to these mountains all my life in a vehicle I'm not someone who enjoys horses or riding bicycles or electric bikes there's so many places my parents and grandparents took me in these places that are sentimental and you want to shut down so many animals buried and still like to go see them and worship their lives i would never be able to make it anymore.
