First name: Iorna

Last name: Miller

Organization:

Title:

Comments: Beaver:

Research has shown that allowing beaver to recolonize their historic habitat has assisted with a wide range of "Environmental Services.

Climate change is real and continuing to have an impact. Beaver dams and resulting ponds perform many functions. USDA. FS own research shows this very clearly. <https://www.fs.usda.gov/about-agency/features/firefighting-beavers>

Please fully integrate the presence of Beaver into all relevant aspects of the BTNF Forest Plan
