Comments: I am opposed to the expansion of Brian Head Resort. My family has owned cherished property in Dry Lakes for six generations. One of my concerns is water usage-by the resort itself and the increasing number of homes on the mountain-more roads, more lots, more people. In the drought years-which are increasing-what will be left for the properties below and for the homes and farms in the valley. Another concern is traffic congestion on U-14, potentially similar to Little Cottonwood Canyon. During the summer months there would be increased traffic and noise on the Dry Lakes Road, with some people having no regard for private land. I certainly am against the Dry Lakes Road being asphalted to accommodate traffic to that side of an expanded resort. More people in the area would also increase fire risk and pollution. The expansion could negatively affect Cedar Breaks with increased visitation, as well as negatively impacting wildlife. While for some, the expansion would be an economic positive, for many it could be a negative-increased taxes, housing affordability, cost of essentials. Please keep the forest, forest!
