Title:

Comments: While I agree that the area has been overrun with people and crowds. I would like to see a last minute option to hike or to park at spruce creek. Or no reservations after 3pm on weekends and no reservations after 1 on weekdays or some way to allow locals to hike or get out up there after work or possible a mid week day that we don't have to plan 2 weeks in advance to go for a quick hike. Once there is a reservation system I would never make the effort to figure out when I can go there. Its always a last minute look at the weather, see what's happening and make a decision.
