First name: Stuart

Last name: Pitstick

Organization:

Title:

Comments: My wife and I are part of the Hurting Units Jeep Club. We go up multiple times a year and maintain trails, repair bridges and work with the PNW. We currently donate more hours than any other club in the liberty Trail system. We would love to be involved in any decision-making for trails being altered or closed since many of them give access to other trails that need repair repairs and brush maintained.

Closing down any illegal areas where other groups or people have damaged the environment would be fine but shutting down current trails that are intact. We would really love to avoid that.

Please feel free to reach out by phone or email or if there is a meeting. I would love to be part of it. Thank you.
