Comments: Hello, my family frequents this area for recreation. We drive up the road to McCullough, take a right at the fork, and park in the dispersed camping area for day use fishing and hiking. We do this almost every weekend. Wondering if there will be changes coming to this area in particular, as it is not as popular of an area as the main roads are. I completely understand the need to renovate the more populated areas like the main roads leading to blue lakes and McCullough, and the shuttle route. Also wondering if there would be closure periods for the construction. Thank you!
