Comments: Hello, I would like to give my opinion on the project proposal for a reroute of wheeler Trail. This is a classic descent trail and a big part of the Breck epic race. It is an iconic suffer fest of a climb if you go up it and it is an amazing iconic downhill in the county that should be kept preserved the way it is. I feel the bathrooms and other things down by the spruce Creek trailhead are a great addition and much needed, but I rarely ever see hikers going up the section that you were proposing to put switchbacks and rerouting. I strongly disagree with this plan and would like to see the trail stay the way it is as well as many other people I know around the county feeling similar. rerouting this trail is going to cause a loss in the fast flowing single track that it is. Personally, I don't see where there would be added erosion to a trail that has been there as long as this one, and I would really like to see this proposal for the reroute to be removed from the scope of work.
