Comments: Please accept this text letter as my objection to the draft decision to the CARLA project #65083

As a member of good standing of a formal state registered off road club I wish to address some of the following concerns and needs:

An ORV Park is not accessible to use. Many grants and funding avenues are or could be at jeopardy.

Access to areas for families and individuals with disabilities have been lost

Other areas will be highly impacted with the nonaccess to this park. Overuse, over population and damagers could occur

Local area livelihood (businesses) are impacted by loss of customers and passer thru tourists/ users allowing another area to use as recreational off-road vehicles

Please consider an alternative method. Thank you for the opportunity to voice my concerns
