Comments: The new trail is a wonderful idea. Thank you for considering e-bikes. E-bikes offer recreation opportunity for seniors and those with physical limitations to recreation. I always believe in the theory of doing the greatest good for the greatest number. E-bikes are a great option for those of us who are aging but still love to be on trails. I feel like fossil fueled engines should not be on a trail like this one. I see no reason why e-bikes could be an issue. Part of horsemanship is exposure to situations that make a horse uncomfortable and most riders know how to handle all situations that can be presented.
Thank you for creating this trail that will provide opportunity for all ages and physical abilities to enjoy Gods beauty.
