Comments: I do not support this project at all because it will be eliminating our camping spots on road 5138 that we use during the elk hunting season.

I've been hunting this area in the Starkey unit since 1990.(Rifle season)

I have camped on this road(5138) every year.

There really are not a lot of camp spots along road 5125 either.

I think now there are only 5 spots on road 5138 to camp now.

There use to be more but through the years a few more spots along the river were taken out.

So I hope this project does not happen anymore.

Thanks.

Guy
