Title:

Comments: I respectfully object to this project and note that I have camped in this location for 15 plus years. It has a large area for myself and hunting partners who also have used this location for over 15 years. There are very few if any camping spots spacious enough for our trailers and tents anywhere nearby. The area is flat and easily accessible for our trailers. Of special note we have always left the campsite (near the end of the road) cleaner than found....although this area has generally been left clean by other campers/hunters. These camp spots have very little to no effect on the river and have never flooded to my knowledge near or during hunting season. Of much concern is being able to find new or different spot that can accommodate our hunting party. I have not witnessed any new spots being developed in recent years. If this project goes forward please be considerate of hunting groups like ours and at least develop camping spots similar in size and that are easily accessible for trailers and tents and as near this location as possible.

Respectfully

Dave Volpe
