Comments: Lost Lake is a beautiful place where we've shared so many happy memories and shared beautiful community with strangers. It is a true gem & landmark for so many in the Hood River area! Removing the LSR designation would devastate the ecosystem and the flora and fauna surrounding it. It would also likely decrease tourism in the area. Please reconsider and keep Lost Lake's LSR status. Please work with local tribes to create a long-term solution for the area that will not affect the tree canopy and harm the ecosystem.
