First name: Dan

Last name: Waugh

Organization: Idaho Recreation Council

Title: Public Lands

Comments: The Idaho Recreation council supports the New Start JaBob Minning project only if recreation opportunities for OHV and Non-Motorized remain intact. If a trail or opportunity is lost, we would still support the project if there were a no-net-loss. Meaning if you have to remove a mile of trail for the mine, increase a mile elsewhere to preserve recreation opportunities.

Recreation goes hand in hand with both timber operations as well as mineral extraction and have coincided together across Idaho for years and years. We at the Idaho recreation council believe in a wholistic approach to managing and being effective stewards of publics lands.

Respectfully,

Dan Waugh

Idaho Recreation Council
