RE: Comanche and Cimarron National Grassland Draft Assessment

To Whom it may Concern:

As a permit holder with the Timpas Grazing Association, I suggest that the USFS, Timpas Grazing Association and permittees continue to work together to make prudent stocking and grazing decisions concerning the grazing of the Comanche National Grassland. Drastic changes are not necessary. The grazing of the Comanche National Grassland is very important to ranching operations in these areas.

Should you need to reach me by phone, please call -----

Sincerely,

Joe M. Bellah
