Comments: To whom this may concern,

I am writing today to make my thoughts known about the upcoming grassland revision. As a part of an operation that gets to utilize a forest service permit, we are very grateful for the use of it. It is a big part of our operation and we care for it as if it were our own. I hope that this revision will be beneficial to the grasslands and that some improvements can come from this.

A significant concern is that this revision may have a negative impact on grazing, and I hope that is not the case. We hope to utilize the grazing on this for years to come.

If possible, I think it would be beneficial to include some prairie dog management to control the growth of the prairie dog towns.

We would also like to see something in the writing regarding road maintenance. As someone who cares for the lease, we would like to be able to take care of the roads as needed.

Thank you for your time,

Austin Kuhn
