Comments: Hello, thank you for your consideration of my comment. I am writing to express how important the airstrips on this land are and my wish to see they maintained and have access continued. Please consider the following when revising the land management plan.

#### Historic Use

\* Both commercial and private aviation activity has historically occurred on these Forests since the 1930s. Please consider adding "aviation" to the list of approved activities.

#### Management and Maintenance

\* Aviation organizations have established Airstrip Integrated Operations and Maintenance Plans on the Wallowa-Whitman Forest. This plan can be replicated on each Blue Mountains Forest for airstrip maintenance. This is cost effective partnering with aviation groups to maintain the airstrips, saving USFS funds.

#### Transportation Infrastructure

\* Airstrips are a component of the USFS nationwide transportation system, as are the roads and trails, and should be considered as such in any management plan

\* Airstrips support Federal and State land management activities, wildfire operations, recreational and hunting use, emergency evacuation, access to private in-holdings and commercial ventures that support the local economy.

#### Objectives

\* Please add "Maintain Airstrips" to this list

#### Dispersed Usage

\* Airstrips provide locations for dispersed backcountry recreation.

#### Aesthetics

\* Airstrips appear as open meadows on level terrain, and offer habitat for wildlife.

#### Effect on Wildlife

\* Scientifically peer-reviewed studies show that aircraft noise has no detrimental effect on wildlife.
