First name: Jacobi

Last name: Lacey

Organization:

Title:

Comments: My name is Jacobi Lacey and I am a native Oregonian who asks that our public lands, do not become federalized. Many people, especially those of Native American heritage and those who also enjoy the outdoors and the beauty of our state and country. I believe that logging or any construction in this mostly wild and natural area would be detrimental to the recreation and tourism industry in the area. I have hiked through the mountains of Oregon and her trails and am happy that our mother nature here is mostly unadulterated. Those who live here and those like me value the clean air and protection the natural area brings along with refuge for wildlife.
