Title:

Comments: Hello, My name is Cory Bettinger. I am a mom and a teacher. I am writing to urge you to work to protect our forests, and to include strong and enforceable components in your Blue Mountains Forests Plan revision that will actually protect wildlife and lands. Our forests are essential for our kids future, as they keep the air and water clean. They are our carbon sink, and the home to wildlife. Extensive logging is a short term gain and a long term loss. Please use your power and expertise to protect our forests and habitat, instead of giving in to pressures to log and degrade our forests. Please include measurable standards to abide by so that they cannot be easily overlooked or evaded.

Thank you for your time
