Title:

Comments: To the US Forest Service,

I object to the proposal.

As a former employee at Vail Resorts from 2014-2023 and seeing the disaster of the Bergman Bowl Project first hand as an employee at Keystone, I do not trust Vail Resorts to replace this lift with respect for the land, that as a citizen of the United States, I own along with the rest of citizens of the United States.

Another reason I object to the proposal is I have watched Vail Resorts crush any activity in the A51 terrain park pod for the last decade. From my observations over the years, there is nowhere near the traffic to justify replacing the lift.

And a final reason, although I understand that we have no jurisdiction over how Vail Resorts operates, as a former employee I was forced to leave the company as they continued to fund multi-million dollar projects that impacts their bottomline and as such, impacts their ability to pay full-time employees a living wage.

Thank you for allowing me the space to share my opinion. I object to this proposal on grounds of past negligence, low skier activity in the area, and finally with a question of the ethics that Vail Resorts uses.

Respectfully,

Jack

Former Employee of Vail Resorts at Keystone (2014-2023)
